

## Download your free evaluation copy of Windows Server 2019

Browse to the evaluation center at the link below and fill out your details to enable you to receive your free evaluation copy of Windows Server 2019 which will be active for 6 months.

<https://www.microsoft.com/en-us/evalcenter/evaluate-windows-server-2019>

When prompted, select **ISO** and then **Continue**

## Windows Server Evaluations

### Windows Server 2019 Evaluations | 180 days

In addition to your trial experience of Windows Server 2019, you can download a new feature on demand for Server Core, the App Compatibility FOD. This FOD contains additional features from the Desktop Experience to improve the compatibility of Server Core for apps and tools used for troubleshooting and debugging. Windows features on demand can be added to images prior to deployment or to actively running computers, using the DISM command. Learn more about the [Server Core App Compatibility FOD](#). Download this [FOD](#). To learn more about FODs in general, and the DISM command, please visit [DISM Capabilities Package Servicing](#).
